## SUCCESS STORIES

---

### Bipod for Sig Sauer

During the indo-china standoff, our team received an enquiry from a forward area based Army unit to develop bipods for sig sauer. We developed, tested and handed over the bipods in record time and at a fraction of a cost.

### Insas sight on Sig Sauer

To enhance the effectiveness of the weapon, our team has developed a Dovetail to

Picatinny adaptor to mount INSAS sights on Sig sauer. This was done for a formation in the northern command.

### IR flashlight for special forces

Our team developed cost effective weapon mounted IR flashlights for a special forces battalion deployed in CI/CT ops.
